Welcome to EBSCO's MEDLINE with Full Text searching tutorial. In this tutorial, you will learn how to conduct searches on both the Basic and Advanced search screens.

The screenshot displays the EBSCO search interface. At the top, the EBSCO logo is on the left, and the search status 'Searching: MEDLINE with Full Text' is shown. A search bar contains the word 'asthma', with 'Search' and 'Clear' buttons to its right. Below the search bar are links for 'Search Options', 'Basic Search', 'Advanced Search', 'Visual Search', and 'Search History'. The 'Search Options' section is expanded, showing search modes (Boolean/Phrase selected), 'Apply related words', and 'Also search within the full text of the articles'. The 'Limit your results' section includes 'Full Text' (checked), 'Date of Publication from' (with month and year dropdowns), 'Publication' (empty field), 'Abstract Available' (unchecked), and 'Human' (checked). Red circles highlight the search bar, 'Search' button, 'Full Text' checkbox, and 'Human' checkbox.

We'll begin by conducting a keyword search from the Basic Search screen with the available **Search Options** set to open. Enter **asthma** in the **Find** field. You can apply additional limiters to your search such as **Full Text** and **Human**.

Also search within the full text of the articles

**Boolean/Phrase** is the default Search mode and searches your terms as they are entered. To place an **AND** between your search terms, select the **Find all my search terms** search mode. You can automatically place an **OR** between search terms by clicking the radio button for **Find any of my search terms**. Place a check in the box for **Apply related words** to further expand your results by also searching synonyms of the terms.

## EBSCOhost Research Databases

EBSCOhost is a powerful online reference system accessible via the Internet. It offers a variety of proprietary full text databases and popular databases from leading information providers.

The comprehensive databases range from general reference collections to specially designed, subject-specific databases for public, academic, medical, corporate and school libraries.

### EBSCO Support Site

EBSCO's [Support Site](#) is available 24 hours a day, 7 days a week. Our FAQ database, tutorials, and user guides can provide answers to your technical questions.

EBSCO Customer Support Representatives are also available by [phone](#) and [e-mail](#) 24 hours a day, Monday through Friday, as well as Saturday and Sunday from 9 a.m. to 5 p.m. (US EST).

### How to Use Help

- When the Help icon appears, you can click the icon and help for the screen you are on will display.
- To obtain help for the database(s) you are searching, click the Help icon to the right of the **Find** field and click on the Database name at the bottom of the left-hand side of the Help window. Database help is also available from the Choose Databases window.
- To view the entire Help System, click the [Help](#) link at the top right-hand corner of the screen.

**Note:** The recommended screen resolution for EBSCOhost is 1024 x 768.

Welcome to EBSCO's CINAHL and MeSH Headings tutorial. Subject Headings are assigned based on article content and help you retrieve more relevant results. In this tutorial, we will look at how to search using the CINAHL Headings feature. The functionality demonstrated is identical to that when searching MeSH headings in the MEDLINE databases.

Search Term Explode (+) Major Concept

Catheter-Related Infections /CO/D T/ED

In this example, we have selected the subject heading **Catheter-Related Infections** with the subheadings of **Complications** or **Drug Therapy** or **Education**.

The screenshot displays the EBSCO CINAHL Headings interface. At the top, there are links for 'CINAHL Headings' and 'View Tutorials'. Below this, a green banner indicates 'Results For: catheter infections' and 'Subheadings for: Catheter-Related Infections'. A 'Search Database' button is visible in the top right. The main area is divided into two columns. The left column lists various subheadings with checkboxes for selection, including 'Catheter-Related Infections', 'Arterial Catheters', 'Catheters', 'Catheters, Dialysis', 'Catheters, Urinary', 'Catheters, Vascular', 'Central Venous Catheters', 'Condom Catheters', 'Epidural Catheters', 'Peripherally Inserted Central Catheters', 'Pulmonary Artery Catheters', and 'Swan-Ganz Catheters'. The right column lists specific subheadings with checkboxes, such as 'Include All Subheadings', 'Blood/BL', 'Cerebrospinal Fluid/CF', 'Chemically Induced/CI', 'Classification/CL', 'Complications/CO', 'Diagnosis/DI', 'Diet Therapy/DH', 'Drug Therapy/DT', 'Economics/EC', 'Education/ED', 'Ethnology/EH', 'Etiology/ET', 'Familial And Genetic/FG', 'History/HI', and 'Immunology/IM'. A 'Search Term Builder Box' is highlighted in green, containing the search term 'Catheter-Related Infections /CO/D T/ED' and a red 'X' icon. A red arrow points from the text 'Search Term Builder Box' to this box. Another red arrow points from the text 'Search Term Builder Box' to the 'Catheter-Related Infections' subheading in the left column. A third red arrow points from the text 'Search Term Builder Box' to the 'Browse Additional Terms' link in a box at the bottom of the interface.

As you select subject headings and subheadings, your search strategy is added to the **Search Term Builder** box. Remove unwanted terms by clicking the red **X** next to the term. To browse for additional terms to add to your search, click the **Browse Additional Terms** link, or after making your selections, click on the **Search Database** button. In this example, we will add more terms to our search.

Search Database

Search Term	Explode (+)	Major Concept
Catheter-Related Infections /CO/D T/ED	<input type="checkbox"/>	<input type="checkbox"/> <span style="color: red; font-weight: bold;">X</span>

The list of subject headings relevant to **urinary infections** is displayed. Click on the term to view the Tree Views or check the box to view all Subheadings.

The screenshot displays the EBSCO CINAHL Headings interface. At the top, there are navigation links for 'CINAHL Headings' and 'View Tutorials'. Below this, a green banner indicates 'Results For: urinary infections' and 'Subheadings for: Urinary Tract Infections'. A 'Search Database' button is highlighted with a red box in the top right. On the left, a table lists subheadings with columns for 'Explose (+)', 'Major Concept', and 'Scope'. The 'Urinary Tract Infections' row is selected, and a red arrow points to its 'Explose (+)' checkbox. A dropdown menu is open for 'Urinary Tract Infections', showing 'Bacteriuria' as a subheading. On the right, a 'Search Term' table lists terms like 'Catheter-Related Infections /CO/D T/ED' and 'Urinary Tract Infections'. The 'Urinary Tract Infections' row has its 'Explose (+)' checkbox checked and circled in red. Below this table, the 'Combine selections with:' section has the 'AND' radio button selected and circled in red. A 'Search Database' button is also present in the bottom right of the search panel.

Search Term	Explose (+)	Major Concept
Catheter-Related Infections /CO/D T/ED	<input type="checkbox"/>	<input type="checkbox"/>
Urinary Tract Infections	<input checked="" type="checkbox"/>	<input type="checkbox"/>

The option to Explode is present for this term, as there is a narrower term ‘under’ Urinary Tract Infections – **Bacteriuria**. The **Explode** option, when selected, will search not only Urinary Tract Infections but also the more specific term of Bacteriuria. If a comprehensive subject search of all types of Urinary Tract Infections is wanted, we select the Explode option. If desired, Major Concept and specific subheadings could be selected. In this example, we will select **Explode**, select to combine the searches with **AND**, and click the **Search Database** button.

## EBSCOhost Research Databases

EBSCOhost is a powerful online reference system accessible via the Internet. It offers a variety of proprietary full text databases and popular databases from leading information providers.

The comprehensive databases range from general reference collections to specially designed, subject-specific databases for public, academic, medical, corporate and school libraries.

### EBSCO Support Site

EBSCO's [Support Site](#) is available 24 hours a day, 7 days a week. Our FAQ database, tutorials, and user guides can provide answers to your technical questions.

EBSCO Customer Support Representatives are also available by [phone](#) and [e-mail](#) 24 hours a day, Monday through Friday, as well as Saturday and Sunday from 9 a.m. to 5 p.m. (US EST).

### How to Use Help

- When the Help icon  appears, you can click the icon and help for the screen you are on will display.
- To obtain help for the database(s) you are searching, click the Help icon  to the right of the **Find** field and click on the Database name at the bottom of the left-hand side of the Help window. Database help is also available from the Choose Databases window.
- To view the entire Help System, click the [Help](#) link at the top right-hand corner of the screen.

**Note:** The recommended screen resolution for EBSCOhost is 1024 x 768.

Summary

**CONDUCTING A SEARCH:** Visual Search allows you to search for articles and view the results in two different styles: Columns and Blocks. Begin searching for articles by entering a search term in the **Find** field and click **Search**. Depending on how your library administrator has set the default screen, results will be displayed in either Columns or in Blocks.

## EBSCOhost Research Databases

EBSCOhost is a powerful online reference system accessible via the Internet. It offers a variety of proprietary full text databases and popular databases from leading information providers.

The comprehensive databases range from general reference collections to specially designed, subject-specific databases for public, academic, medical, corporate and school libraries.

### EBSCO Support Site

EBSCO's [Support Site](#) is available 24 hours a day, 7 days a week. Our FAQ database, tutorials, and user guides can provide answers to your technical questions.

EBSCO Customer Support Representatives are also available by [phone](#) and [e-mail](#) 24 hours a day, Monday through Friday, as well as Saturday and Sunday from 9 a.m. to 5 p.m. (US EST).

### How to Use Help

- When the Help icon appears, you can click the icon and help for the screen you are on will display.
- To obtain help for the database(s) you are searching, click the Help icon to the right of the **Find** field and click on the Database name at the bottom of the left-hand side of the Help window. Database help is also available from the Choose Databases window.
- To view the entire Help System, click the [Help](#) link at the top right-hand corner of the screen.

**Note:** The recommended screen resolution for EBSCOhost is 1024 x 768.

## How does the EBSCOhost search engine determine relevancy ranking?

- ▶ Match on subject headings from controlled vocabularies
- ▶ Match on article titles
- ▶ Match on author keywords
- ▶ Match on keywords within abstracts
- ▶ Match keywords within full text
